CALIFORNIA AIR RESOURCES BOARD (CARB) IN-USE OFF-ROAD DIESEL-FUELED FLEETS REGULATION COMPLIANCE CERTIFICATION

This Project is subject to the California Air Resources Board (CARB) approved amendments relating to In-Use Off Road Diesel-Fueled Fleets found at California Code of Regulations Title 13, sections 2449, 2449.1, and 2449.2 (the "Regulations"). The

Regulations require a Prime Contractor, bidding on a public works project to be awarded by any public works awarding body, to certify that the Contractor's off-road diesel-fueled fleets comply with CARB regulations. Section 2449(b) includes a list of off-road diesel-fueled fleets subject to these regulations. It is the responsibility of the Contractor to verify if their fleet is subject to these regulations.

Contractor is required to obtain and submit Certificates of Reported Compliance from all subcontractors that are listed in the bid submission. Failure to provide Contractor's CARB compliance number may constitute a material irregularity rendering their bid non-responsive and non-responsible, and subject to rejection for non-responsiveness.

No award shall be made to a Contractor that has failed to provide its CARB compliance certificates, unless the Contractor confirms that no equipment subject to the regulation will be used to execute the Contract Work. By submitting a bid, the Bidder hereby certifies that it is aware of the requirements set forth in Sections 2449, 2449.1, and 2449.2, Title 13, California Code of Regulations and any successful Bidder and its subcontractors shall comply with sections 2449, 2449.1, 2449.2 of Title 13 of the California Code of Regulations, including by providing Certificate(s) of Reported Compliance for In-Use Off-Road Diesel-Fueled Fleets for the fleet selected for the contract and their listed subcontractors, if applicable, with its bid.

Contractor shall not enter into a contract with a fleet for which it does not have a valid Certificate of Reported Compliance for the fleet and Contractor's listed subcontractors, if applicable, prior to entering into a new or renewed contract with that fleet. Contractor shall only allow fleets with valid Certificates of Reported Compliance on Contractor's job sites. The Certificates of Reported Compliance received by the Contractor for this Project must be retained for three (3) years after the Project's completion. Upon request by CARB, these records must be provided to CARB within five (5) business days of the request. Between March 1 and June 1 of each year, Contractor must collect new valid Certificates of Reported Compliance for the current compliance year, as defined in Regulation Section 2449(n), from all fleets that have an ongoing contract with the Contractor as of March 1 of that year. Contractor must not write contracts to evade this requirement.

If Contractor discovers that any fleet intending to operate vehicles subject to the Regulation for Contractor does not have a valid Certificate of Reported Compliance, as defined in Regulation section 2449(n), or if Contractor observes any noncompliant vehicles subject to the Regulation on Contractor's job site, then Contractor must report the required information to CARB within the time period contained in the Regulations.

Upon request by CARB, Contractor must immediately disclose to CARB the name and contact information of each responsible party for all vehicles subject to the Regulation operating at the job site or for Contractor. If applicable, Contractor shall prominently display signage for any project where vehicles subject to the Regulation as provided and within the time period contained in the Regulation.

Situations in which prime contractors or public works awarding bodies, as applicable, are contracting for projects that are considered emergency operations, as defined in section 2449(c)(18), are exempt from the requirements in section 2449(i)(1)-(3), but must still retain records verifying vehicles subject to the regulation that are operating on the emergency operations project are actually being operated on the project for emergency operations only. These records must include a description of the emergency, the address or a description of the specific location of the emergency, the dates on which the emergency operations were performed, and an attestation by the fleet that the vehicles are operated on the project for emergency operations only.

Contractor shall complete and return the "California Air Resources Board (CARB) In-Use Off-Road Diesel-Fueled Fleets Certification of Compliance" form attached hereto as a condition to bidding this Project.

DESIGNATION OF SUBCONTRACTORS

In compliance with the provisions of Sections 4100-4108 of the Public Contract Code of the State of California, and any amendments thereof, the undersigned shall set forth below the name, location of the place of business and the California contractor license number of each subcontractor who will perform work (meaning the total amount of the subcontractor's contract amount including all labor, materials, supplies and services) in excess of one-half of one percent ($\frac{1}{2}$ of 1%) of the total bid; and, the general category or the portion of the work to be performed by each subcontractor.

If the undersigned fails to specify a subcontractor(s) for any work to be performed under the Contract, the undersigned agrees to perform the work and shall not be permitted to subcontract that work except in cases of public emergency, and then only after written finding as public record by the Board of Supervisors.

The undersigned certifies that all subcontractor(s) listed below are currently the holder of valid contractor's license(s) in the State of California and the license(s) is the correct class of license for the work to be performed by the subcontractor(s).

The undersigned certifies that it and all subcontractor(s) listed below have registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 (applicable for all bids submitted on or after March 1, 2015). The undersigned agrees that no contractor or subcontractor may be awarded a contract for public work or perform work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 (applicable for all contracts awarded on or after April 1, 2015). The undersigned acknowledges that the project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

As required by Labor Code 1771.1(a) "A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the

Where a hearing is required for a decision on the substitution of subcontractors, pursuant to the provisions of Chapter 4, Part 1, Division 2, of the Public Contract Code, (commencing with Section 4100) by the awarding authority, or a duly appointed hearing officer, the Clerk of the Board of Supervisors shall prepare and certify a statement of costs incurred by the County for investigation, and to conduct the hearing, including the costs of any hearing officer and shorthand reporter appointed. For the purposes of a hearing for the substitution of subcontractors (pursuant to the Public Contract Code commencing with Section 4100) the awarding authority shall be the Interim Director of the Project and Facilities Management Department, or his/her designee.

The statement of costs shall be sent to the undersigned, who shall reimburse the County for all costs. If not paid separately, such reimbursement shall be deducted from monies due and owing to the undersigned prior to acceptance of the project.

Responsibility for the Program Jaimie R. Angus, CEO & Chairman of the Board will personally oversee the program and will appoint Megan Stone as the Equal Employment Opportunity Officer (hereinafter referred to as the EEO Officer) to carry out the program. The EEO Officer is hereby given full authority to carry out the program and is given the responsibility and authority to ensure we:

1. Maintain and disseminate a written equal employment opportunity policy, which includes discrimination, harassment, and retaliation prevention policy;
2. Take affirmative steps to ensure equal employment opportunity;
3. Includes EEO language in employment advertisements;
4. Notifies labor organizations or our commitments when applicable;
5. Requires subcontractors to comply with the same nondiscrimination obligations.

The EEO Officer will also be responsible for ensuring the following program practices are in effect:

1. Internal Dissemination of Policy: In order to disseminate the EEO Policy to all members of the company staff who are authorized to hire, supervise, promote and discharge employees, or who recommend such action, the company will take the following steps:

March 2026

- (a) Include the policy in the company's policy manual;
- (b) Publicize the policy in company newspapers, magazines, annual reports, and other available media devices;

Griffith Company shall specifically ensure that all foremen, superintendents, and other onsite supervisory personnel are aware of and carry out the Griffith Company's obligation to maintain such a working environment, with specific attention to minorities or females working at such sites or in such facilities.

2. External Dissemination of Policy: In order to make the company's Equal Employment Opportunity Policy known to all employees, prospective employees, and potential sources of employees, such as schools, employment agencies, labor unions, and college placement offices, the company will take the following action:

- (a) Inform all recruitment sources verbally and in writing of the company policy, stipulating that these sources actively recruit and refer minorities and females for all positions listed;
- (b) Send written notification of the company policies to all subcontractors, vendors, and suppliers with requests for appropriate action on their part.

- (c) Send written notification of the company policies to labor unions when projects are awarded and when labor is requested from the union halls.

Recruitment

1. When advertising for employees, the company will include in all advertisements for employees the notation: "An Equal Opportunity Employer". The company will insert advertisements in newspapers or other publications having a large circulation among minority and female groups in the area from which the company's workforce would normally be derived.

Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel action of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, leave of absence, and termination, will be taken without regard to race, color, religion, sex, national origin or disability. The following procedures will be followed:

1. Periodic inspections of project sites will be conducted to ensure that working conditions and employee facilities do not allow discriminatory treatment of project site personnel.
2. The company will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the company will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.
3. The company will investigate all complaints of alleged discrimination in connection with its obligations under its contracts, will attempt to resolve such complaints, and will take appropriate corrective action. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons.

Training and Promotion

1. Consistent with its requirements and as permissible under Federal and State regulations, the company will make full use of training programs, such as pre-apprenticeship, apprenticeship, or on-the-job training programs, for the geographical area of contract performance.

Unions: The company will use its best efforts to obtain the cooperation of any unions with which it has collective bargaining relationships to increase minority and female opportunities within the unions, and to effect referrals of minority and female employees by such unions.

1. The company will cooperate with unions, as appropriate, to develop joint training programs aimed at qualifying more minority and female employees for membership in the unions and increasing the skills of minority and female employees so that they may have the opportunity to qualify for higher paying employment.

2. The company will encourage the incorporation of an equal employment opportunity clause into any union agreements stating that such unions will be bound contractually to refer applicants without regard to race, color, religion, sex, national origin, or disability.

3. In the event a union is unable to refer minority and female applicants as requested by the company within the time limit set forth in a union agreement, the company will, through its own recruitment procedures, fill the employment vacancies without regard to race, color, religion, sex, national origin, or disability, making every effort to obtain qualified female employees.

Subcontracting

1. The company will use its best effort to assure subcontractor compliance with equal employment opportunity obligations through monitoring and enforcement of "Section 21 - Recourse by Contractor" and "Section 22 - Indemnity Clause for Equal Employment Opportunity Violations" contained in Griffith Company's construction subcontract.

Records and Reports

1. The company will keep such records as are necessary to determine compliance with its equal employment opportunity obligations. The records kept by the company will be designed to indicate:

(a) The number of minority, non-minority and female group member employees in each work classification.

2. All such records will be retained for a period of three years following completion of the contract work and shall be available at reasonable times and places for inspection by authorized representatives of the State governments. The company reserves the right to require these representatives to show proper credentials.

Assistance in Compliance: The company agrees it will assist and cooperate actively with the appropriate governmental agencies and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity Clause and the rules, regulations, and relevant orders of the Secretary of Labor. The company will furnish such information as may be required for the supervision of such compliance.

Non-Segregated Facilities: All employee facilities provided by the company shall be non-segregated. These include, but are not limited to, rest areas, parking lots, drinking fountains, and all other such common facilities. Toilets and necessary changing facilities will offer privacy to both males and females.

Griffith Company will use its best effort to meet the goals set forth in the contract specifications. Complaints of non-compliance and grievances are to be directed to the attention of the company's designated Equal Opportunity Officer:
